Pampero Series

The **PAMPERO series** is the latest creation from Fantastic that allows to combine quality, performance and cost. It meets the most needs in terms of technology.

Activated by a brushless motor with integrated VFD, it offers high efficiency energy guaranteed low consumption, and total silence when in use. Thanks to the integrated electronics it can work in combination with other Fantastic system devices and via Modbus communication, each parameter of the single machine can be individually adjusted. Both the engine and the electronic components are made of aluminum with an IP65 degree of protection which makes the destratifier suitable for all work environments. The diameters available for this series are 8, 10, 12 feet (with the possibility customization). The blade profile is of the Naca type.

KEY FEATURES

DIAMETERS

from 8 to 12 feet
and customizable
Blade Design Naca

MOTOR

IP65 brushless
motor + VFD with
remote control

ANCHORS

for any type
of installation

CUSTOMIZATION

Water Transfer Printing /
Painting on demand

APPLICATIONS

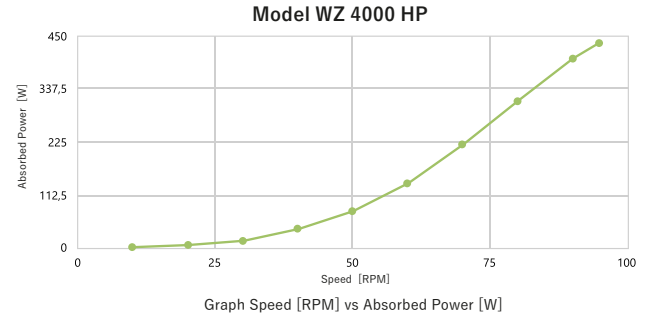

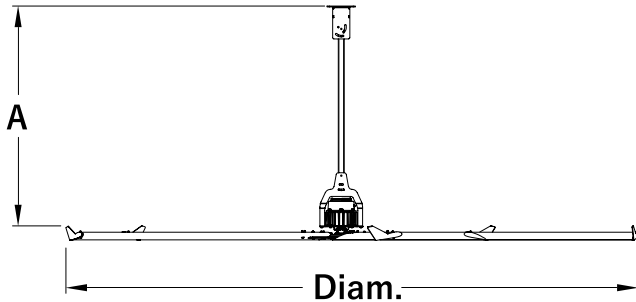

Industrial, Commercial,
Zootechnic

1225 North Loop West Suite 450
Houston, Texas 77008 USA
